

The 2nd International Conference on Health and Longevity Sciences

food safety | food-drug interactions | personalized healthcare | lifestyle-related diseases | drug and functional food development

October 1, 2009 9:00 – 17:30

University of Shizuoka (Lecture Room 13411)

Symposium

“Integrated Food-Pharmaceutical Science”

11:00 – 12:10 Symposium I: Technologies and Innovation in Food Science

Rolando A. Flores

University of Nebraska- Lincoln

Challenges and opportunities in education, research and outreach in food science

Jens Walter

University of Nebraska- Lincoln

The importance of the gastrointestinal microbiota for health: An evolutionary perspective

14:30 – 15:30 Symposium II: Food, Drug and Environmental Safety

Krongtong Yoovathaworn

Mahidol University

Efficacy and safety of compounds from *Zingiber sp.*, *Curcuma sp.* and Tea as drugs and cytoprotective agents

Narin Boontanon

Mahidol University

Risk of PFOS and PFOA contamination in drinking water

15:45 – 17:30 Symposium III: Beyond Functional Foods: Drugs and Discoveries

Margot Skinner

The New Zealand Institute for Plant & Food Research Ltd.

Wellness and mood foods

Tsutomu Nakayama

University of Shizuoka

Chemical biology of tea catechins

Toshiyuki Kan

University of Shizuoka

A lesson from catechins: Development of probe molecules and lead compounds for drug discovery

Student Presentations

13:00 – 13:45

Presentations by student participants in the 2009 Shizuoka Health Sciences English Program (SHEP)

Poster Sessions

Rooms: 13408 – 13414

9:00 – 11:00 Global COE Program members
13:45 – 14:30 2009 SHEP participants

Global COE Program, University of Shizuoka --- Innovation in Human Health Sciences

52-1 Yada, Suruga Ward, Shizuoka City, Shizuoka 422-8526, Japan

TEL: 054-264-5124
